

Decade of Energy Transition for Economic Prosperity

Day 1

Tuesday 8th July 2025

@ Marcellina Centre, Along Radisson Hotel,
Ikeja GRA, Lagos, Nigeria

Briefing Note

Day 2

Thursday 20th November 2025

Virtual

The 10th NEF 2025 – DECADE OF IMPACT

- **Nigeria & Africa must maximize** the **decade** of energy transition for economic growth, youth employment & global decarbonization, using strategic investments & partnerships.

○ **Across 10 years, NEF has attracted 8000+ stakeholders & trained 4000+ energy professionals**

- **At NEF2019**, EU Ambassador to Nigeria launched **30Million Euro** fund for commercial & industrial solar projects in Nigeria.

- **In NEF2020, 2021 & 2022**, Nigeria Minister of State for Power unveiled **USD2.3billion** power sector plan & investments of USD440billion needed for 2060 energy transition targets.

- **NEF2023** originated a landmark 40M USD financing deal with **Afrexim** Bank for a domestic manufacturer & agro-processor.

- NEF2025 will gather 400+ participants & mobilize multi-million USD investment for creating quality jobs, industrialization & prosperous societies; and follows NEF2024 global impact.

Industry Sector

KEY RECOMMENDATIONS

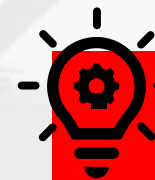

Industrialization is required for growth of agro-processing, solid minerals & value addition sectors.

Strategic Investments must be mobilized for renewables, energy access industrial power & network.

Community action transform livelihoods, environmental sustainability & economic activity

Upscaling innovations from tertiary institutions & industry critical for power sector growth.
